PARUL PAL

AI/ML Intern | Python | Machine Learning | NLP

Ghaziabad, Uttar Pradesh, India • Email: eng.parul5418@gmail.com • Phone: +91 9045975418
LinkedIn: parul-pal-93a417349 • GitHub: parulpal637 • Portfolio: parul-portfolio

PROFESSIONAL SUMMARY

BCA student with hands-on experience in Python development, machine learning fundamentals, and NLP-based applications. Experienced in developing AI projects, integrating Flask-based applications, processing data, and debugging code. Interested in applying machine learning and Python skills to real-world problems while contributing to practical AI solutions.

TECHNICAL SKILLS

Programming: Python, C++, C, JavaScript

Machine Learning: ML Fundamentals, scikit-learn, Model Training, Feature Extraction, Model Evaluation

Data Analysis: Pandas, NumPy, Data Preprocessing

NLP: TF-IDF, CountVectorizer, Cosine Similarity, Text Classification

Frameworks & Tools: Flask, Streamlit, SQLite, Git, GitHub, Jupyter Notebook, VS Code

Web Technologies: HTML5, CSS3, REST API Integration

EXPERIENCE

AI/ML Intern — December 2025 – January 2026

Pranovate IT Solutions Pvt. Ltd. | Remote

- Worked on practical development and debugging tasks involving Python and AI/ML concepts.
- Applied programming and problem-solving skills while working on technical tasks.
- Gained exposure to development workflows and building practical software solutions.

PROJECTS

CashGuard-AI — *Python, Flask, SQLite, OCR*

- Developed an AI-oriented invoice management application to organize invoice information and payment deadlines.
- Implemented invoice-related workflows and deadline tracking to help users identify potential early-payment savings.
- Integrated a Flask backend with SQLite for application data management.

AI Resume Analyzer — *Python, Streamlit, PyMuPDF, Sentence Transformers*

- Developed a resume analysis application to extract document content and support resume-to-job-description comparison.
- Used text processing and sentence embeddings to compare resume content with relevant job requirements.
- Built an interactive interface for users to submit and review resume analysis results.

NLP Plagiarism Detection System — *Python, scikit-learn, TF-IDF*

- Built a text similarity system using TF-IDF vectorization and cosine similarity.
- Compared text documents to identify potential content overlap.
- Implemented classification labels to distinguish original, suspected, and copied content based on similarity.

EDUCATION

Bachelor of Computer Applications (BCA) — Expected Graduation: 2027

Hi-Tech Institute of Engineering & Technology, Ghaziabad (Affiliated with CCSU)

CGPA: 7.8/10

CERTIFICATIONS

- Microsoft AI Skills Fest (2026)
- Microsoft Introduction to Machine Learning (2026)
- Microsoft Introduction to Natural Language Processing (2026)
- Google Cloud Introduction to Generative AI (2026)
- Deloitte Australia Data Analytics Job Simulation — Forage (2025)

ACHIEVEMENTS

- Secured **1st Prize** after ranking first in the BCA second year.
